# PORTFOLIO

## Mobile Point of Sale and Store Management Solution

For Tomax, we designed and developed a suite of iOS apps and services to manage all of the processes in their clients' stores. We developed solutions for everything from point of sale, to inventory and store management.

# Deseret News

Deseret News is Utah's largest news paper company. Members of our team developed their iOS application which delivers all of the Deseret News' latest content to users.
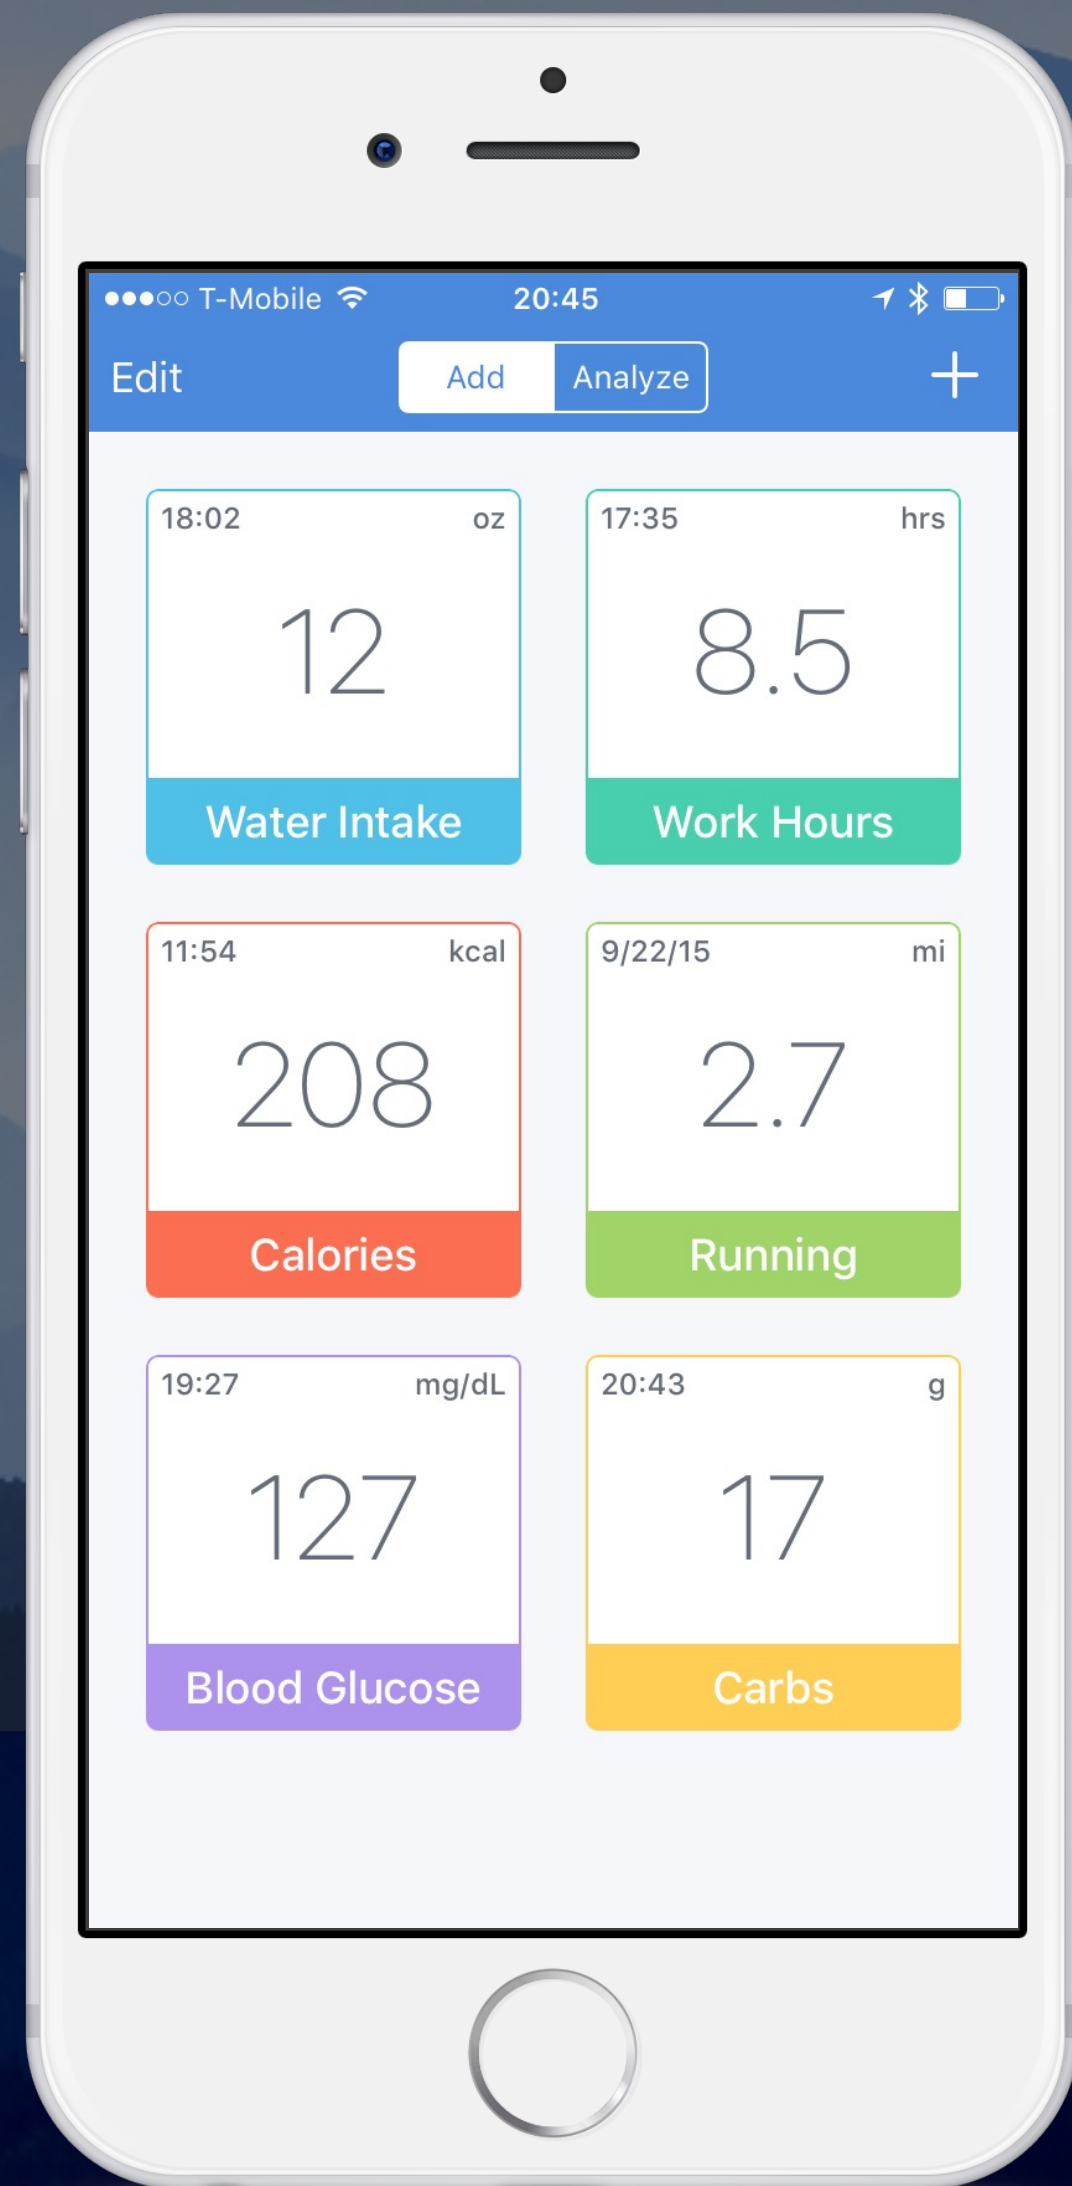

## Track Anything

Keep track of anything and everything that matters to you.

## Personal Analytics

Visually analyze your data with charts that allow you to discover trends.

## Event Stream

Every is backed by an event stream service that allows it to rapidly scale as it captures massive quantities of data.

## External Data Feeds

Every can automatically capture data from the world around you through sources like the internet of things or public data feeds.

James Kirk
Enterprise

The app we created for Randon Aviation is focused on flight school management. The app allows the flight schools to schedule out lessons with their students and track their progress as they go.
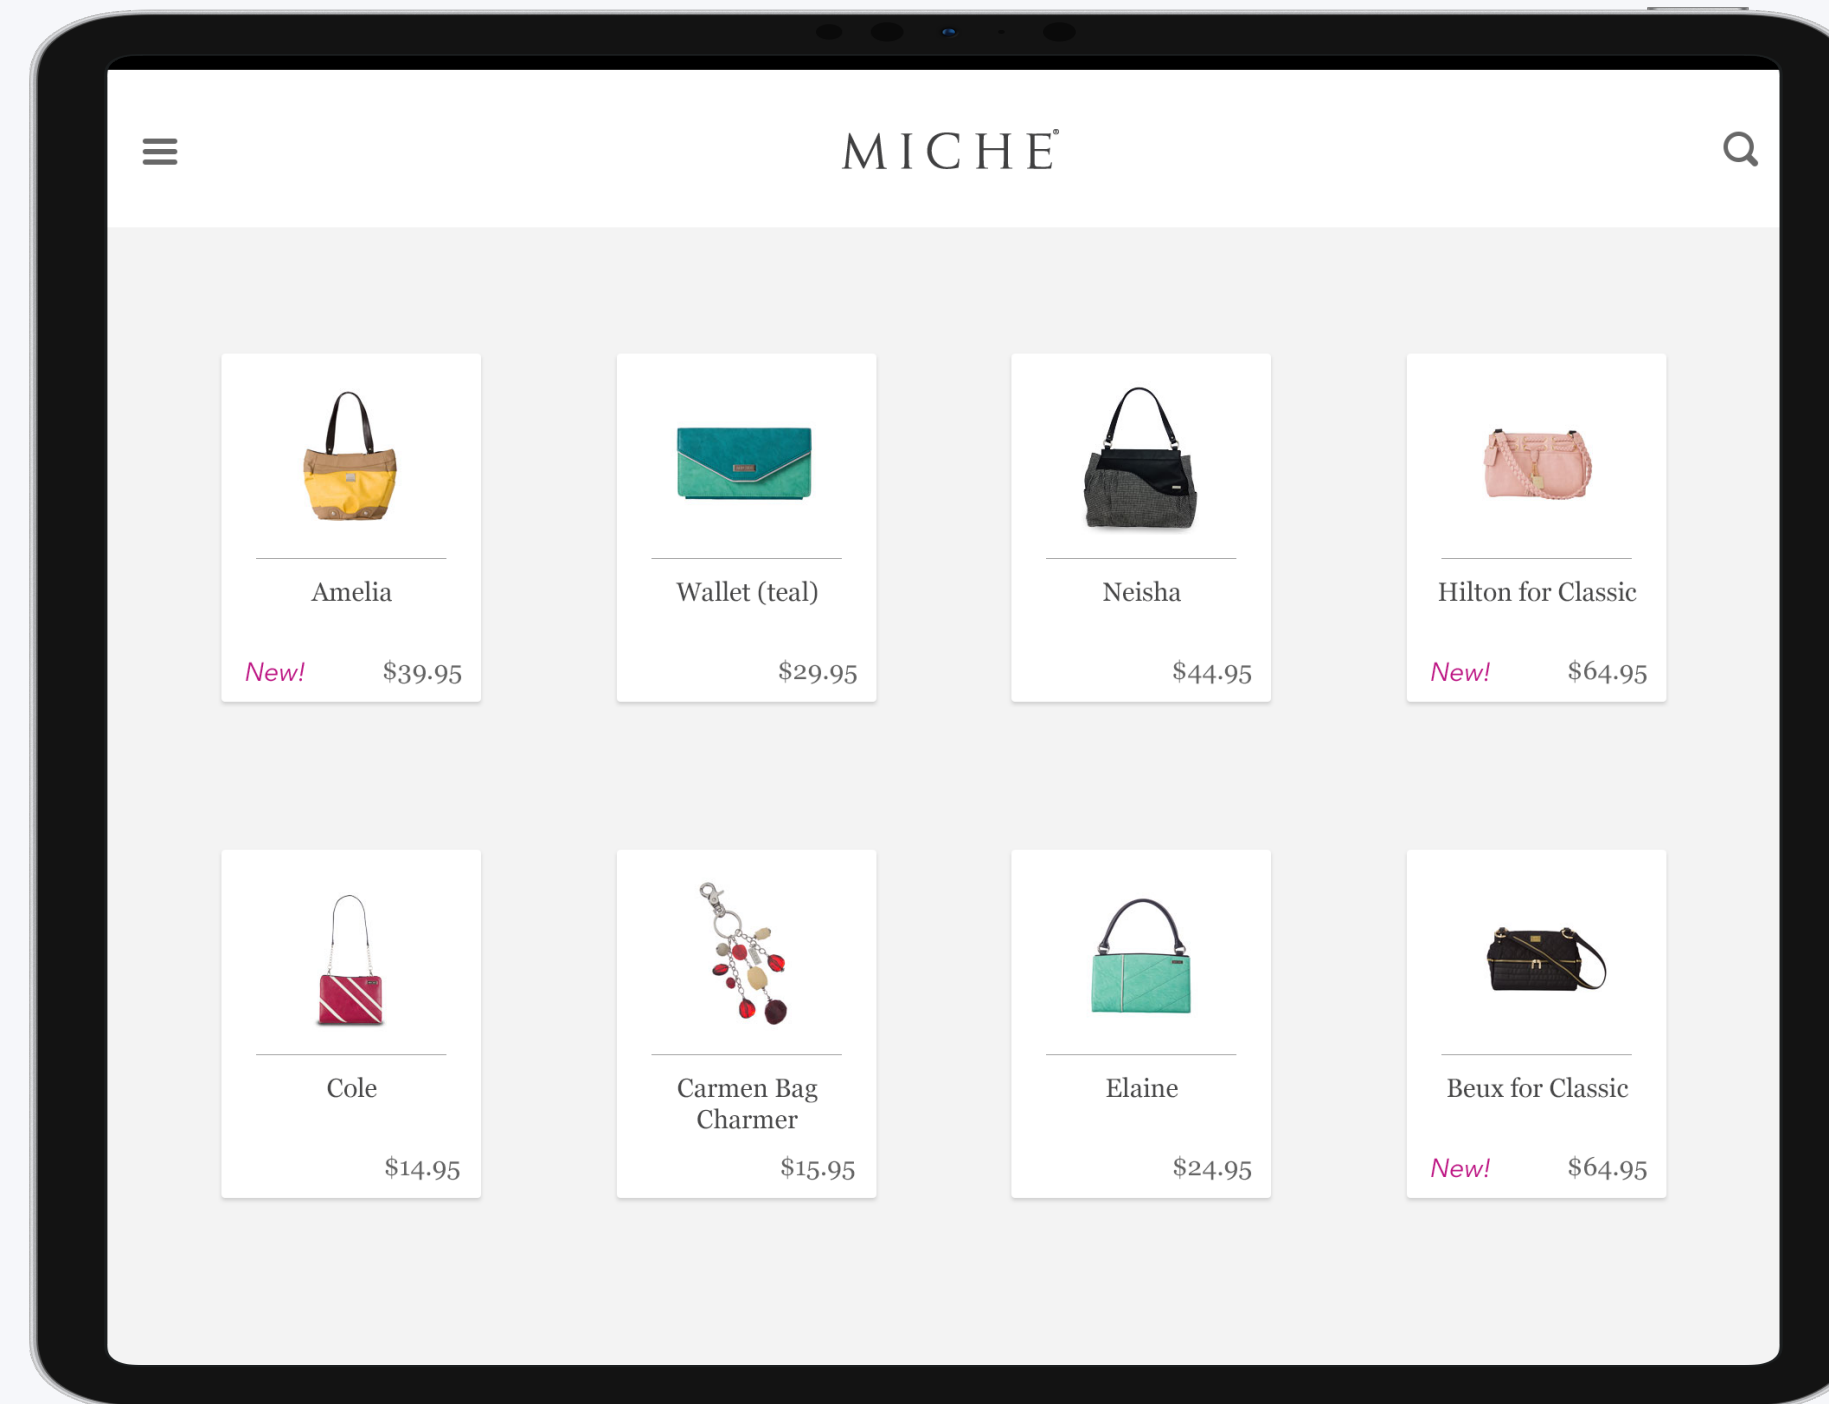

EXEMINE

# Executive Networks

A prototype that we designed for Executive Networks' mobile application initiative.

# Miche

Miche is a fashion focused direct sales organization. The app we designed and developed for them allows their sales representatives to present their content to potential buyers.

## Dodo Bird

28    Skip    Got it!    Missed It

## A Group Game

A great game to play with all of your family or friends.

## tvOS

Developed Specifically for tvOS on the new Apple TV.

# Silver Rush App

Silver Rush is a charity fundraiser that is put on by a local Utah high school every year. Exemine volunteered to build and now maintain an app to support this fundraiser. Over the past four years, this app has aided the charity in raising over $500,000.
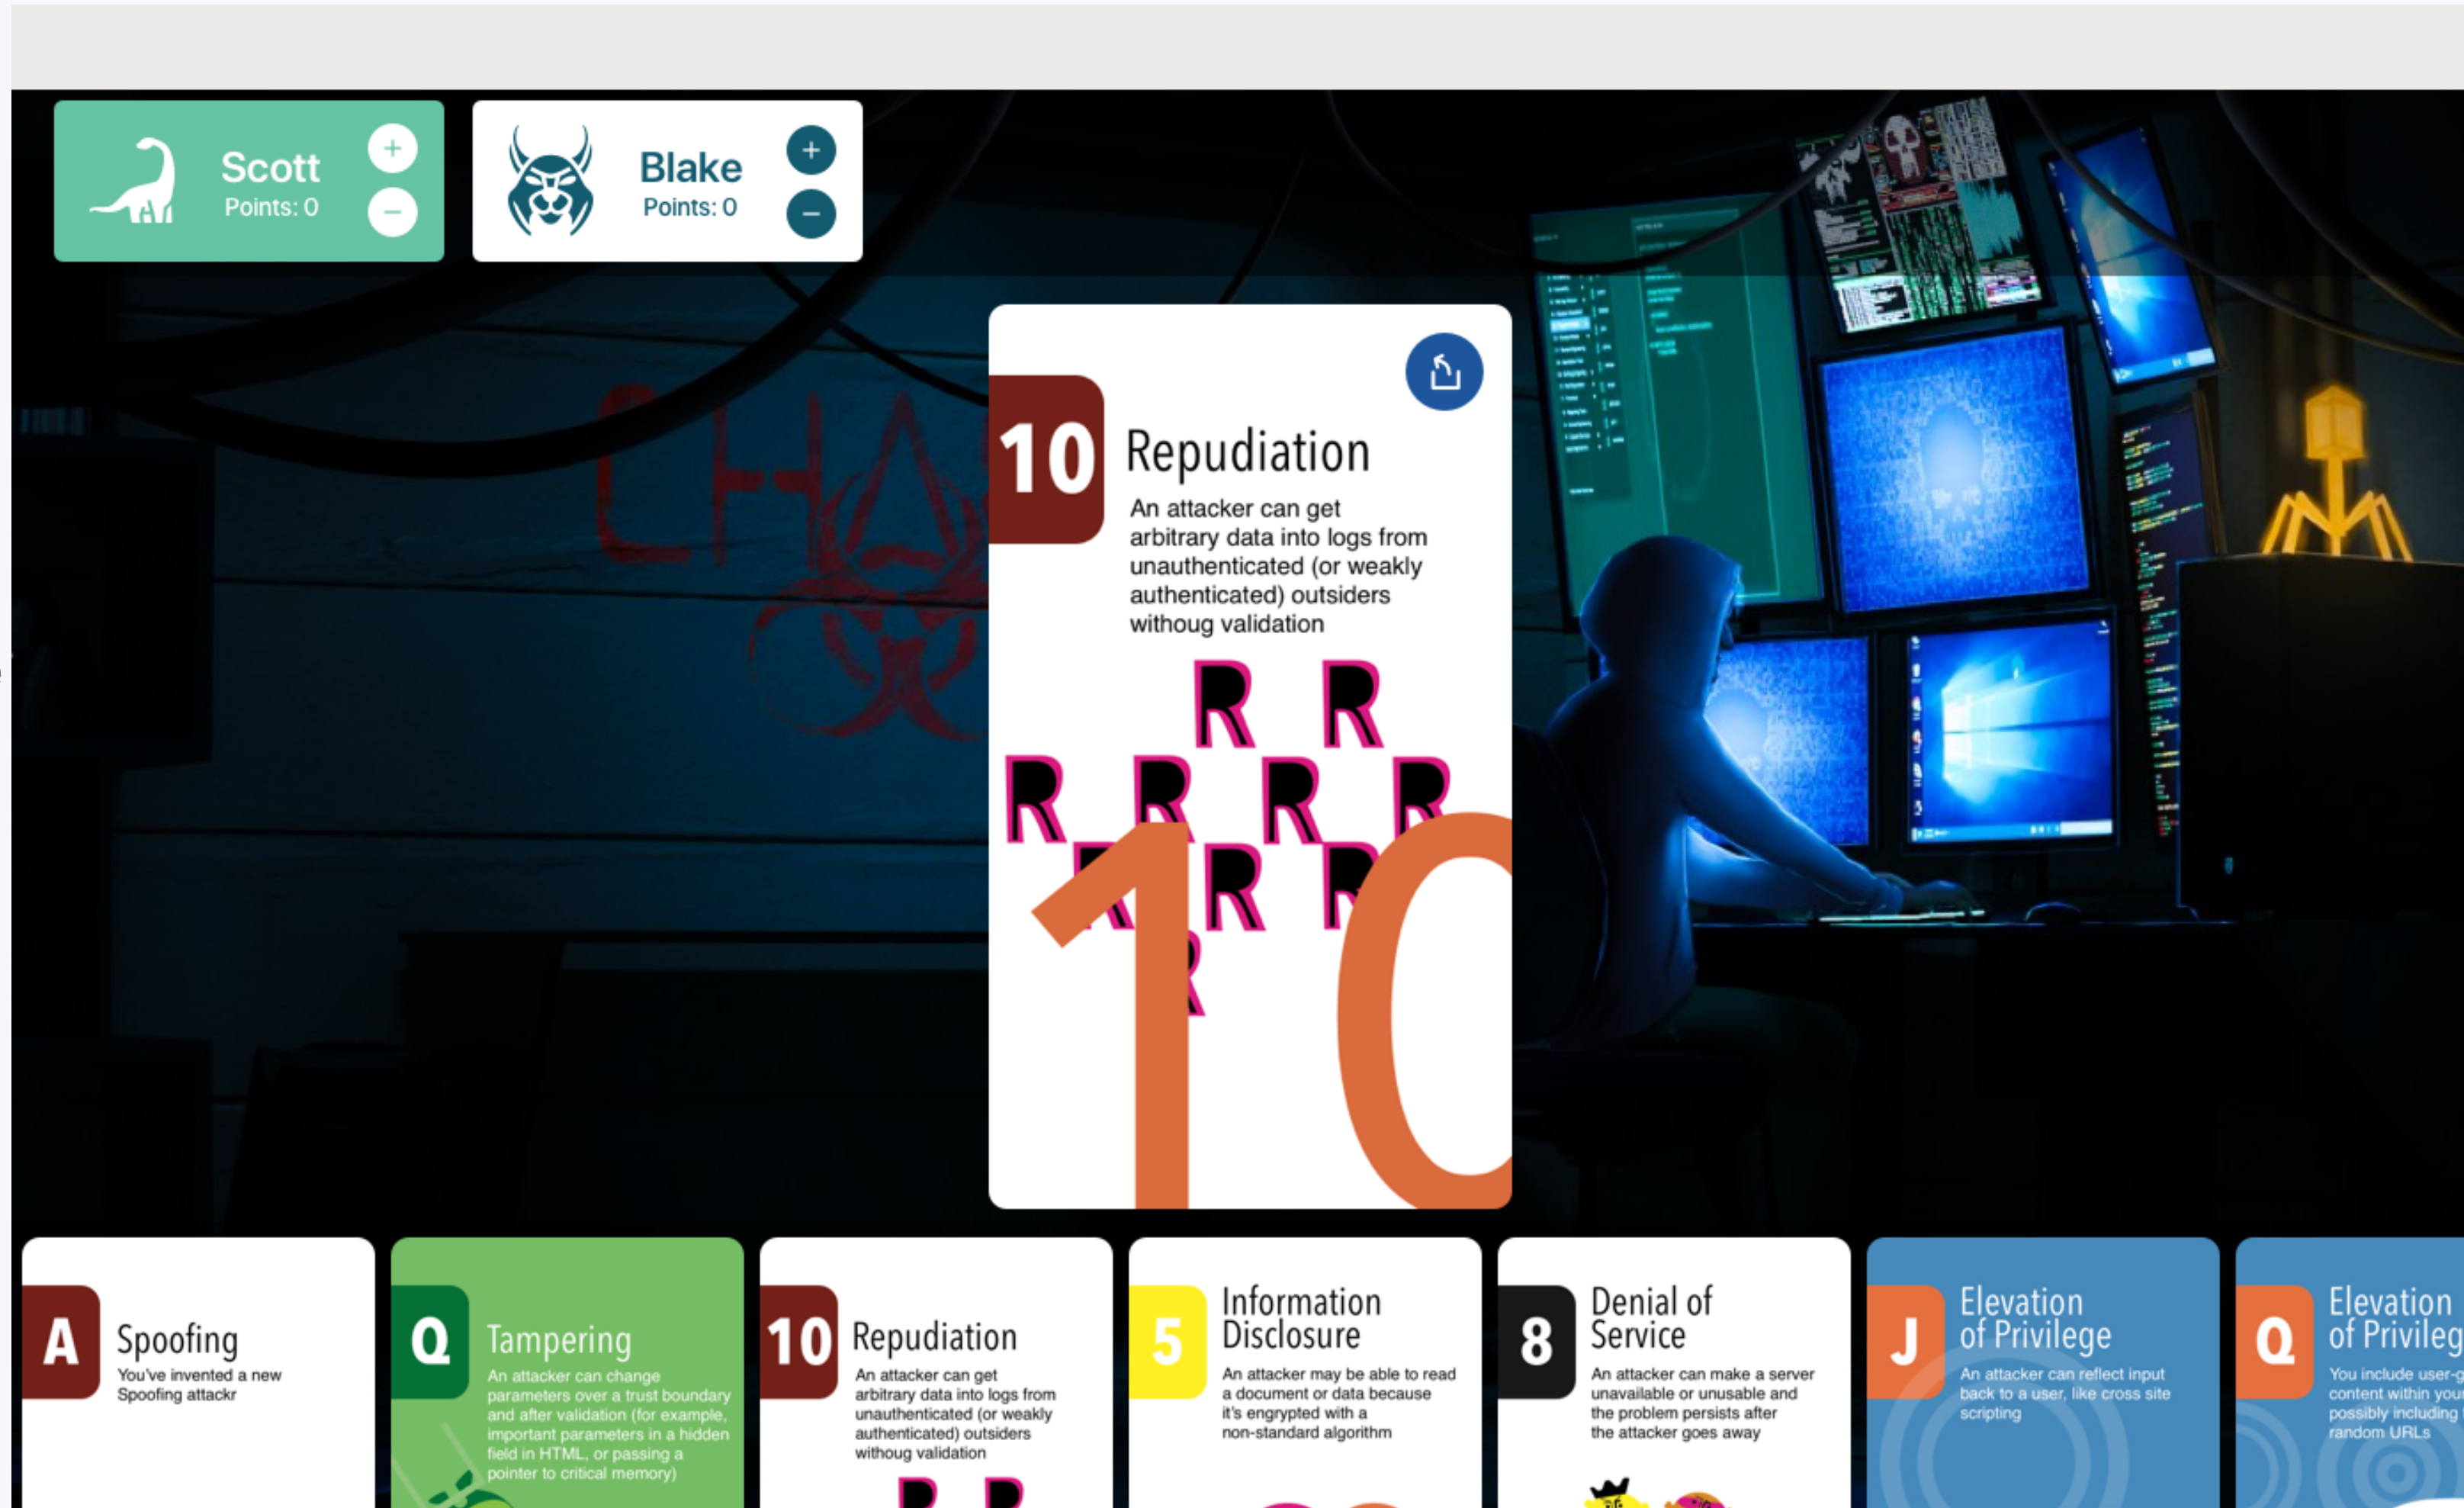

# WellONE

WellONE is a corporate wellness program application. It allows companies to create wellness challenges for their employees. Employees can involve their friends and family in a fun and social way.

# Elevation of Privileges Game

Serious Game to help software teams perform threat modeling exercises while remote using a game developed by Adam Shostak former security engineer at Microsoft.

# More Apps We've Worked On

## KSL Deals

An application similar to Groupon for deals local to the Salt Lake City area.

## Pinky Promise

Tween app that keeps record of the "pinky promises." people make.

## Ancestry

The world's largest genealogy company's applications.

## Blackthorn Pharma

First mobile app used in a FDA approved trial of medication

## MOS Nose

Companion application to a children's book series. Includes game and pet resources.

## NoteToSelf

A simple recorder for the Apple Watch.
